diskGO® Pocket USB 3.0 SSD
Product Overview

(for size reference only)

Are you in search of a high-capacity USB 3.0 Solid State Drive (SSD) in a discrete design? If so, the diskGO® Pocket USB 3.0 SSD delivers. Smaller than a credit card, the diskGO Pocket SSD is one of the smallest portable SSD solutions available.

Equipped with USB 3.0 - the fastest USB connection – the diskGO Pocket SSD is up to 10x faster than USB 2.0 storage. USB 3.0 is also backwards compatible with USB 2.0 systems. SSDs have no moving parts and are faster, more rugged, and more efficient than hard drives. The sleek black aluminum exterior provides additional cooling and durability.*

A powerful SandForce based mSATA SSD drives the diskGO Pocket SSD, providing unparalleled performance. Store HD movies, archive photos, and back up music libraries with lightning fast speeds. Getting started is easy - simply connect the diskGO Pocket SSD to an available USB port of a computer to begin backing up and transferring files. No software to install or setup required.

Also available as a standalone enclosure, the diskGO Pocket mSATA Enclosure turns an mSATA SSD into a portable storage device. Perfect for users upgrading an UltraBook to a larger mSATA capacity and have an extra mSATA SSD available.

The diskGO Pocket USB 3.0 SSD is USB powered, so no additional power supply is required. This product is backed by a three-year warranty.

**When connected to a USB 3.0 port*

diskGO® Pocket USB 3.0 SSD
Product Overview

Mobile SSD Storage
SuperSpeed USB 3.0 Performance

- **Smaller than a credit card — one of the smallest portable SSD solutions available**
